MESSAGE FROM THE PRINCIPAL

VINCENT BONNEFILLE

Dear Madam, Dear Sir,

The French School Jakarta's team is happy to welcome you to Jakarta.

You have enrolled your child in a school that works in partnership with the Agency for French Education Abroad (AEFE), with a network of 535 schools worldwide.

We offer our students an ambitious curriculum and quality teaching, from kindergarten to senior high-school, and prepare your children to the Baccalaureate (English section) which paves the way for studies in all universities in the world.

We continue to open the American international section in Primary classes. All information is on our site.

The excellent results obtained in the Cambridge, IELTS and Baccalaureate certifications prove the the recognized quality of our modern language teaching. A real estate project centered on restructuring and renovation of our school has just been completed. Your children arrive in a school with more space and redesigned reception areas.

We have developed a strict health protocol with the security services of the French Embassy and the advice of the High Scientific Council. We use all the resources of the establishment to guarantee a working environment that allows children to be welcomed safely in the current context.

The entire management team wishes you a warm welcome.

WELCOME COMMITTEE

The French School of Jakarta's welcome committee, group of volunteer parents, wishes you a warm welcome.

Our goal is to help you understand how French School works, and to ease your arrival in Jakarta.

We invite families (parents and children) to a Welcome Morning at the beginning of each school year: introduction to the school by the management team, and visit of the school premises. A welcome "café" is held afterwards.

We will be very happy to meet you and your children during this event.

After each school holiday, we organize for newcomers families meetings during a welcome "café" for each level to meet, share your remarks, and answer your questions on French School and Jakarta.

Terms and conditions for participation:

- Sport, art and cultural activities are offered in cooperation with all the teaching and administrative staff of FSJ. Supported by the Board of Governors, these activities provide a local solution to the needs of children in the field of after-school recreation.

- Children can choose activities depending on available spaces. The number of children per activity is limited for supervision and security reasons.

At the beginning of the school year a presentation forum is held to allow families to discover the activities on offer, the schedule as well as the coaches.

Registration is done online through the parent portal.

3. BCD / LIBRARY FOR PRIMARY SCHOOL

The BCD is the Library Documentation Center of the primary school. It is a pleasant place, designed to promote the well-being of students and offering quality children's books in French, but also in English and Indonesian. In the timetable of each class, a slot is reserved for the BCD. The librarian offers readings and events in collaboration with teachers. Other sessions may be added depending on the projects: participation in a literary prize, initiation to documentary research, media and information education, etc.

Students can borrow 3 books at a time, during their weekly session, thus offering students the prospect of exciting moments of reading at home, independently or with their parents for the youngest. Elementary students also have the opportunity to exchange their books during recess if they wish.

5. SCHOOL CANTEEN

restauration@frenchschooljakarta.com

Educating children to “eat well” is part of the French curriculum and great care is taken in planning the menus, sourcing the best ingredients and using savor-enhancing cooking methods. A group of Chefs prepare the meals on-site every day. MSG and artificial colorings are completely prohibited, replaced by herbs and spices, virgin olive oil and fresh fruits and vegetables.

Every meal includes an appetizer, the choice between a western or oriental main course, a dessert and bread. Young children are encouraged to try everything and can get multiple servings under the cafeteria staff’s supervision. If pork is used, several posters inform the students and an alternative dish is always on offer. Pork is never served.

Lunch boxes are not permitted, except in cases of severe allergies, after consultation with the school’s Medical Department. Parents can choose between registering for the school cafeteria and having their children coming back home for lunch.

Primary students are served first, from 11.45 am; college and high school students join later, from 12.30 pm to 1.30 pm.

The menus and canteen fees can be found online. Registration and invoices are done at the beginning of each term. Registration can be for the whole week or for certain days only.

6. PRIMARY SCHOOL COMMUNICATION

Communication between parents and teachers is critical to students' success in school, and is the responsibility of both parties. An information meeting for parents takes place at school in September to present the general organization of the school, plans, projects and themes covered in your child's class and to address any questions you have. Teachers are also happy to meet with parents upon request. This can be arranged using the correspondence book, to discuss your child's progress, any difficulties your child may be experiencing or any issues you wish to raise or any questions you wish to ask. Mr. Frédéric Tavernier, the Primary School Director, is also available for meetings for more general issues.

Parent representatives: any parent who wishes to volunteer can come forward at the meeting in September to become the class representative, a link between families and class teachers. Volunteers are also invited to represent their class level at the School Governing Board, concerned with academic issues of the school. These two positions that represent families, work together to focus on issues relating to each class and to each school level.

Email contact list: an email list for each class is created each year from details given on the registration form. Please make sure that you have given an email address which is regularly used. The list allows the school and parent representatives to communicate with parents on a range of important information including health information, news about school trips, newsletter, etc.

School reports: they are available online on Pronote, accessible through your unique family password.

It is strongly recommended that you carefully save the school reports.

Kindergarten uses progress books to reports the progress of learnings according to the new programs.

School events and field trips: over the course of the school year, there are a number of events and activities in which families are invited to participate. Teachers may ask parents to help on field trips or with specific projects. For excursions outside of school, students are asked to wear the French School polo shirt.

Teachers will communicate with you by email.

2. STRATEGIC PLAN AND DEVELOPMENT

The school project defines the educational and pedagogical policy for three years.

3. LANGUAGE PATHWAYS IN PRIMARY SCHOOL

Language curriculum is one of the main concerns of AEFE to meet our ambition to train future world citizens.

All grades of Primary school are organized in sections. The aim of these sections is to introduce lessons in common for all students and then offer different courses.

In kindergarten, every day is divided into common lessons in French and lessons in sections:

- in reinforced English, with an English-speaking school teacher
- in reinforced French, with a French school teacher of the corresponding level

In elementary, for each student, 17,45 hours a week are devoted to lessons in French, 3 hours to English language lessons and 45 minutes to Bahasa Indonesia lessons. 4.5 hours are then devoted to sections:

- In American International section, 2.5 hours of lessons in French and 2 hours of teaching in American international section lessons
- In American international extra English section, 2.5 hours of curriculum subjects taught in English and 2 hours of teaching in American international section lessons
- In multilingual extra French section, 4.5 hours of subjects in French

The program and teaching objectives of all sections are those of the French National Education system. The orientation decision of which section a student is enrolled in is made by the school's academic team bearing in mind each family's plans for their children's education, the school trajectory of each student and their linguistic profile. A meeting with the Primary School Director is necessary to understand the parents' wishes and to present the different options.

French Language support

A French language integration plan (CLIN) is open for non-French students requiring additional assistance in French. They will be enrolled in a reference class corresponding to their age group and will have specific classes with a "French as a Foreign Language" (FLE) teacher whose aim is to help them progress sufficiently in French.

To complete this program, weekly classes of French as an Academic Language (FLSco) and French as a Foreign Language (FLE) will be offered to students requiring supplementary support in French language. This is offered to all Primary and Middle School students. This structure of French language support has been developed by our academic teams in order to facilitate all students' entry into our academic system.

4. STUDENT SUPPORT

Individual support for Primary School students

For each student, the teachers build an individual work program that targets all temporary or persistent difficulties. At the end of each term, the Teachers Board for each academic cycle discusses action plans and groups are reorganised according to students' needs.

Care-Support Framework (SAS)

In Primary School, the SAS system (Structure d'Aide et de Soutien - Care and Support Framework) is used. If a student is facing more serious difficulties, strategies are put in place either for individualised remedial action (PPRE - Projet Personnalisé de Remédiation Educative) or for individual plans for academic integration in consultation with the speech therapist.

5. COURSE CHOICE AND UNIVERSITY ORIENTATION

Mr. Vlerick, ressource-orientation staff, is in charge of orientation at French School, in association with Mrs. Mainguy, documentalist.

Information meetings focused on universities' admissions procedures are organized at French School Jakarta for both students and parents.

A "Job fair" is organised every two years for students from Middle school (3ème) and high-school, where professionals present their job and job field.

6. EXAMINATIONS AND DIPLOMAS

Diplôme National du Brevet (DNB) and Baccalauréat

FSJ is the examination center for the Brevet National Diploma (DNB) and the examination center for the Baccalaureate European English section (Première and Terminale final tests).

Baccalauréat exams for the second group are taken in Singapore.

Exams dates are fixed by the Chief Education Officer of the Montpellier academy, with which FSJ is associated.

All students take the Baccalaureate in European-English Section.

Language certifications

The Cambridge Certification (English-language school diploma) and other certifications are available for LV2 in secondary school (Chinese, Spanish, German...). These certifications have a cost, except for the Cambridge, which is already integrated to certain grades tuition fees (6ème, 3ème, 1ère).

3. REPRESENTATION OF PARENTS AND COMMISSIONS

1. Parent representation

Elections of Parent Representatives for the School Boards and School Education Boards will happen in October. An email to inform the parents will be sent to them at the beginning of the school year.

Parents elected to the School Board and the School Education Board are full members of these bodies and have voting powers.

The Parent Representatives facilitate a good relationship between the parents and the school staff. They are therefore notified of any new arrivals which may take place during the course of the year.

They can consult the School Director to resolve specific problems and thereby act as the medium of communication for the parent concerned. Any issues relating to learning difficulties encountered by a student should first be discussed between the teacher and the student's parents. However, at the request of the parents, the Parent Representative may intervene and take part in finding a solution.

By all means, Parent Representatives need to maintain the confidentiality of any personal information they may be made aware of.

The school shall inform Parent Representatives when a certain document must not be communicated among the parents in a class. Any usage of mailing lists must respect the rules of confidentiality.

Therefore, a copy of any document sent out by Parent Representatives must be submitted to the Director of Primary School or the Principal.

Parent Representatives on the Secondary school Class meetings

In the Secondary School, another way of getting involved is to represent the parents of a class at the Class Committee. The Principal will be looking for volunteers for these committees at the beginning of the school year.

Two parents from each class, or just one for classes of less than 15 students, will attend the French School Class Committee. These committees meet once each term; they are led by the main teacher of that level and chaired by the Principal, or the Education Advisor. Parents are responsible for the minutes of meetings which are submitted to the President of the Class Meeting and distributed to the families of students in that class.

Parent representatives act as points of contact between French School and the parents.

2. Current and future committees

The committees are working groups created according to requirements by the Board of Governors or the Principal.

The committees are composed of staff, volunteer parents and experts. They work on specific projects and submit their work to the School Education Board and Board of Governors. The Principal is also represented on the committees.

Committees may carry out work over a number of years or be limited to a specific project. Each committee meeting (3 or 4 meetings per year) must have an edited report.

Every committee must include a member of the senior management team and a member of the Board of Governors.
